## SAFETY

Taking into consideration of importance of adopting the safety measures in the construction field, We have a well-defined Safety program, written and implemented through a Safety Department headed by a Safety Engineer. We have developed a safety system for imparting continuous training to enhance the awareness among the people who are working at site. Over and above the service we give to our clients, we also take special care for safety at all our sites.

- Providing First Aid Kit with medicines at site,
- List of emergency telephone numbers of local Police stations, Hospitals, Fire Brigade, Ambulance etc.
- Barricading of the entire site / wherever required.
- Sign Boards at entrance, exit, turnings etc.
- Safety Helmets and Shoes for the working staff.
- Proper lighting system for whole site, required for working in night shift.
- Proper sanitation facility at site.
